

# Health Safety & Environmental (HSE) Policy

Safety is a shared responsibility. In the interest of improved safety, it is the policy of Westfield Energy Resources Limited to ensure, as far as possible, a work place free of health and safety hazards.

To accomplish this, we shall comply with all occupational safety, health and environmental laws mandated by relevant local, state and federal regulation.

Priority shall be giving to the Health and Safety of its Employees, Clients and all members of the public who may be affected by our operations.

Progress towards overall implementation of this policy shall be the responsibility of top management.

## To Achieve This Policy, Westfield Energy Resources Limited Shall:

- Strive for zero incidents in all our operation.
- Ensure that employees and subcontractors have the required competency to perform their job.
- Disseminate safety information through Posters, Warning signs, Safety Meetings, Drills etc.
- Encourage incident reporting and investigate all reported incidents. Implement recommendation with a view to prevent reoccurrence.
- Review our performance on a regular basis to ensure continuous improvement
